

Red-Light Runners **TAKE LIVES**

Red-Light Cameras **SAVE LIVES**

Reductions in red-light running prevent loss of innocent life.

 **2+**
DEATHS PER DAY

were caused by red-light running crashes from 2007-2011. An average of 63 deaths per month.

In 2011, there were **645 fatal red-light running crashes** in the U.S.

 About **1/2 OF THE 712 DEATHS IN 2011** were people other than the red-light runner.

A 2012 study by Texas Transportation Institute found **right-angle red-light running crashes**

 **DECREASED 24%**

at intersections with red-light safety cameras.

A 2011 study of 14 large U.S. cities found red-light safety cameras

 **LOWERED FATALITIES 24%** and the rate of all types of fatal crashes by 17%.

Red-light running **fatalities decrease** as **cameras increase** nationwide:
